"The Next Fifty Challenge Final Draft

Hawaii is nearly a perfect place to live; yet it still faces some problems. Homelessness is one of our island's biggest threats. People without homes clutter the sidewalks with their shopping carts, plastic bags, and whatever else they can manage to get from scrounging through trashcans. This affects our rate of tourism. Even if only a few less tourists come every year, it could build up and ruin our entire society. Unemployment is another one of Hawaii's problems that result in homelessness. Therefore, we need to try harder to solve this problem. So, this is what I think needs to happen in the next fifty years for Hawaii to be the best place to work and live.

First, I think the government should start thinking of ways to address the problem that some people can't pay for themselves because they don't have a job. I have thought of several possible ways to solve unemployment. One is to create more jobs by having companies hire more people for each job so they can take in more employees and less people will have trouble paying for themselves. The second possibility is for the companies to pay the employees a higher wage. This would mean the government would need to give the companies more money so they could supply the employees with more.

In addition, I think making jobs more bearable would lure more people to work in a specific company. The reason I thought of this was because my friend's dad once worked for Chevron and then he quit because the job experience was horrible. My first thought was to install more cold-water fountains because usually wherever I go the water from the fountains is warm. Drinking more water will keep our employees healthy so the business ratings do not go down. My second idea was to have the companies improve the conditions like adding comfier chairs and more organized desks. If the workers feel comfortable, they will be more efficient and productive.

Homelessness is a big problem in Hawaii. I thought that if Hawaii builds more places for homeless people then there wouldn't be so many of them out in public. My idea was to have the government make places called homeless hotels. Only people without homes can move in there until they got a job. This also helps with the unemployment problem by getting more people to get jobs. Tourism plays a big role in Hawaii's economy. So what would happen if everybody who visited came and saw homeless people sitting on the sidewalks, staring at them?

There are just some of my ideas to tackle the problems that Hawaii faces. If we can solve these issues, then Hawaii can probably be the best place to work and live. I love living in Hawaii and will try to make this the best place for everyone."

The motion was put to vote by the Chair and carried, and H.R. No. 165 was adopted, with Representatives LoPresti, Luke and Saiki being excused.

It's bills like this that really clarify the ethics code, and if we don't have bills like this what happens is our ethics czar then is going to make interpretations. Representative McKelvey rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In support. I would just like to reassure the good previous speaker that that will definitely be the case. Thank you very much."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, I rise with reservations with a brief comment, and hopefully will be responded to as well. Mr. Speaker, it regards the first page, lines 8 and 9 that said the intent here is to develop an offshore high technology park. What is an offshore high technology park? Offshore, out in the water, technology park. We've got a Mililani high tech park. So it's only because this may have something which is a new construct, which I don't understand, or there's something there that the good gentleman from Maui might be able to respond to. Otherwise, I just have reservations until that clarification comes through. Thank you."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. Representative McDermott rose to speak in opposition to the measure, stating:

"I'd like to cast a no vote on this and some brief remarks. This seems duplicative in nature to me, as it addresses an interagency working group for mental and behavioral health. The Felix Consent Decree already requires, by law, that children get everything from speech therapy to behavioral therapy to anything you can imagine under the sun. If the parents request it and there's a legitimate reason, they will get it. So that seems to be duplicative in nature.

"So then what you're left with is the physical health programs. And we know what that's all about, that's social engineering. And this is the school system intruding upon the parents again. We might as well just move the kids into the school and eliminate the parents from the equation. Thank you."

Representative Jordan rose to speak in support of the measure, stating:

"In strong support, Mr. Speaker. Mr. Speaker, this is a very important measure. We're trying to bring back something that was almost 12, 15 years ago. This is to maybe help put health back into our schools where a health aide can't do what they need to do. And maybe they shouldn't have a health aide title, because they can't even help our children with their health needs outside of putting a band aid on a cut.

"But, Mr. Speaker, more importantly, if you look at the DOE's budget, the DOE could be paying for services that could be billable to Medicaid and reimbursed by the federal government. That's what this is all about, Mr. Speaker, to really look at an alignment with our Health Department,

public nurses, getting into our neediest places, our school facilities, Mr. Speaker. Thank you very much."

Representative Belatti rose to speak in support of the measure, stating:

"Thank you, Mr. Speaker. In strong support. Mr. Speaker, I would like to also request that the words of the previous speaker be entered in the Journal as if they were my own.

"And I would just like to clarify, Mr. Speaker, one of the impetuses of this bill is, as the Representative from Waianae pointed out, is a federal ruling that was sent down late last year with respect to the ability of states to be able to charge Medicaid programs as well as private insurance for many, many of the health services that are required through IEPs. And so this is a measure that is critically important to ensuring that we can get control of our budgets, parts of our budgets that are the most expensive in the State, which are the Department of Education and the Department of Human Services.

"This is not about social engineering, and I urge anyone who would like to look up the Free Care Policy and the conversations that are happening nationwide as many, many states are looking at how to align their systems. Thank you, Mr. Speaker."

The motion was put to vote by the Chair and carried, and the report of the Committee was adopted and S.B. No. 841, SD 2, HD 1, entitled: "A BILL FOR AN ACT RELATING TO SCHOOL HEALTH," passed Second Reading and was referred to the Committee on Health, with Representative McDermott voting no, and with Representatives Kawakami, LoPresti, Luke and Saiki being excused.

Representative Kong rose to disclose a potential conflict of interest, stating:

"Mr. Speaker, ruling on a potential conflict of interest. I own a taxi company. Thank you," and the Chair ruled, "no conflict."

Representative Ward rose to speak in opposition to the measure, stating:

"Mr. Speaker, strong reservations, maybe a no, I'm not sure, let me finish my speech first. Mr. Speaker, I really love this bill in the sense that it's an innovative, creative way of adding a new way of transportation for the State of Hawaii. It gives our people a great option. It's about sharing your car when you're going somewhere and you pick somebody up, and in this case it's under an umbrella called Uber, and evidently on the mainland it's a very, very successful entity. And I think Uber grew out of what otherwise for those of us in the DC area used to have 'slugs' that you would pick up on the way to D.C. So it's sort of a slug, which was for free, you pick up people in certain places, and then take them into the D.C. area.

"In this case, it's where they are using their car, going to where they want to go, and they're being signaled if you will through an app, and it's all coordinated and made sure. So if any of us wanted to come to work to the Capitol and take a few cars off the road, Mr. Speaker, we could sign up.

"Here's my beef though. This bill treats it as if it is a taxi. It taxes it, it regulates it, it says, you ride sharing people under Uber, you're going to be treated like a taxi. I don't think that's fair, Mr. Speaker. We should be taking these savings, which are probably maybe 40% from a taxi fare, and not withstanding my good friend who is a taxi driver with all due respect, I think this is something for the people of Hawaii for environmental purposes, for traffic, and using what otherwise the rail would have, taking cars off the road.

"But if we're going to treat it like a taxi, my understanding is Uber is just going to pick up and leave Hawaii, Mr. Speaker. And that would not be good. This is an excellent example of an innovative, creative way to create more transportation options. But the way this bill treats it, you're under the PUC, you've got to do all the same things that taxi drivers do, which they do and they do a good job, but this is different, this is more ride sharing, it's not a taxi company. For those reasons, Mr. Speaker, I think I'll vote no."

Representative Ing rose to speak in opposition to the measure, stating:

"I rise in opposition. First time I rode Uber was 2011 in Washington. First thing, I was just completely shocked by how clean the car was, how friendly the driver was. It was an experience like no other. And I ride taxis a lot, I'm from the neighbor islands, so whenever I'm here it's often difficult to get around without a car, and there's just no comparison, really.

"When it's your own vehicle, there's a different standard of service. You keep it clean and you don't cheat anyone. You actually can't in Uber and Lyft, because GPS tracks where you're going so you can't just drive around in circle, get lost, charge more. You need to treat your customer very, very well. There's a higher level of accountability, without the licensures, without the red tape that taxi drivers have to go through.

"Instead of trying to create parity by regulating Uber and Lyft like taxis, we should create parity by deregulating taxis. Yeah, we all like this idea. My generation, we're used to voting with taps on our phones, whether it's five stars, thumbs up. And they work. When you're rating a driver four or five stars and if their rating falls under 4.6, they can get fired. If you're a bad passenger as well, you can not get picked up by the better drivers if you cause a lot of trouble. That's why I think the experience of Uber, that peer to peer communication, it just works.

"In regards to insurance, every driver has to go through car inspections. They need driver's insurance, normal insurance obviously, but the passenger is covered under the umbrella company, Uber or Lyft. So the only concern would be if this driver was to harm the passenger physically on purpose, and that just seems very unlikely.

"When Airbnb was created, everybody was saying, this is a crazy idea, you're hosting people at your home, there's going to be murders and it's just not safe. They're completely wrong. The rating systems just go a long way. So instead of trying to find ways to bring down this industry to make it less efficient like taxis, we should really find ways to incorporate taxi drivers and existing companies like my fellow Representative's into the Uber and general sharing economy ecosystem. Thank you."

Representative Thielen rose to disclose a potential conflict of interest, stating:

"Thank you. Mr. Speaker, I'm rising to speak against the bill too, but first I'd like to ask for a ruling on a potential conflict. Thank you. My grandson was a driver for Uber. He no longer is doing that, and is out of the country," and the Chair ruled, "no conflict."

Representative Thielen continued to speak in opposition to the measure, stating:

"I disagree with this move. I think the idea took hold because we have a world wide web, we have the Internet. Very creative thinking took place and they put together this ride sharing program. I think it was an entrepreneurial approach. They are insured. I think it's run well, and I don't think we should go in and kill it. Thank you."

Representative Fukumoto Chang rose to speak in opposition to the measure, stating:

"Thank you, Mr. Speaker. In opposition. I was going to vote reservations but everybody else one-upped me, so I guess in opposition. My main issue with this bill is just, again, this is an innovative new way to do something and I don't think we should automatically respond to those things by trying to overregulate them.

"That said, other states have had security problems with Uber, so it's not perfectly safe. There are states that are having trouble, so we do need to look at something to make sure that we're going to be able to regulate this at least a little bit, but I think this is overdoing it. So in opposition for now, but maybe we can fix it in CPC. Thank you."

Representative Tupola rose to speak in opposition to the measure, stating:

"Same request, Mr. Speaker, no vote. For the same reasons, when I was sitting in the committee, I think that a lot of the information from Uber I requested and I still need to review a lot of it. There could be a lot of good coming out of it, but again I think that there needs to be a middle ground that hasn't been found yet. So until it has, then I'll be a no. Thank you."

Representative Matsumoto rose and asked that the Clerk record an aye vote with reservations for her, and the Chair "so ordered."

Representative Pouha rose and asked that the Clerk record an aye vote with reservations for him, and the Chair "so ordered."

Representative Jordan rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, please note my reservations. Mr. Speaker, my reservations on this particular measure, not that I don't think we should develop a test for Hawaiian language immersion children, but we have already given the Department of Education \$1 million almost two years ago in the Finance Committee. The Department of Education has already contracted with the University of Hawaii to prepare this test. The Department of Education has already committed the other \$2 million to finalize this test. We have already received an exemption for the next school for the children to take this test from the federal government. And Mr. Schatz, who is with the Department of Education, has stated to us that if he needs to get another extension from the federal government, he will do that and he will make that decision in the next six months.

"So at this point in time I would like to support my Department of Education and the Board of Education who have moved forward on this, and I don't think this measure is needed at this particular time, Mr. Speaker. Thank you very much."

Representative Pouha rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, in support with reservations. My concern goes out to those parents who don't necessarily start their children in Hawaiian immersion from a very young age. So I have seen in our community parents are sort of on the fence and sometimes introduce their children into Hawaiian immersion, perhaps in the third or fourth or fifth grade, so they've already had English instruction. So sort of the inverse of what's being recognized in this bill. So just with some reservations and some cautions moving forward."

Representative Tupola rose to disclose a potential conflict of interest, stating:

"Ruling on a potential conflict. My children go to Hawaiian immersion," and the Chair ruled, "no conflict."

Representative Tupola continued to speak in support of the measure with reservations, stating:

"Reservations, Mr. Speaker. Similar concerns about what's going on with the immersion program. Thank you."

Representative McKelvey rose to speak in opposition to the measure, stating:

"Mr. Speaker, I'd like to cast a no vote on this measure and I'd like to explain why, if I may. Mr. Speaker, the reason why I'm in opposition to this measure is three basic reasons. The first reason is that the industry itself has never come to us and said there's such a major problem with doing film production in the State of Hawaii that we need to move the Film Office into the Hawaii Tourism Authority.

"In fact, most of the industry members who testified, testified in opposition to the measure, Mr. Speaker. In fact, I think we're sending the exact opposite message to the film industry by moving this measure, and that we're becoming a much more difficult place to do film business.

"Second objection I have, Mr. Speaker, is the Hawaii Tourism Authority has some major issues that it needs to deal with, including a declining visitor experience which threatens our east bound visitor market. Why they would want to take on film production at this time when you have these issues, TVRs, and others going on, I do not know why.

"Which leads me to the third issue, Mr. Speaker, is that the Hawaii Tourism Authority is our branding of Hawaii to the world for the visitor industry. And as such, it could be perceived that denying film permits would be based upon the content, artistic expression of a film, because it may not show Hawaii in the light that the HTA would like, thereby chilling even more film production in the State of Hawaii and driving the economy down.

"And then the final reason, Mr. Speaker, is I've not heard any dysfunctionality within DBEDT. DBEDT themselves hasn't come to us and said, we need to move the film out of our division and into the HTA.

"Mr. Speaker, I think this is really alarming and I'm really worried because I think the message it sends, especially when you do production five years out, is that Hawaii is becoming a much more difficult place to do business, and I think that's the last thing we need to be sending out when we're trying to encourage a green, economic job creating industry that provides much more prevailing wages to all of businesses in our community. Thank you."

Representative Ward rose to speak in support of the measure with reservations, stating:

"Mr. Speaker, with reservations. With a similar perspective of the previous speaker, however I think we basically have an identity crisis here and it's confusing as to where they belong and where they think they belong. And each of the organizations which they are intended to belong to say, well it's up to the other organization, and this has been going back and forth like a bouncing ball for a number of sessions.

"Mr. Speaker, the issue is all about money. When you really get underneath the skin of where this is, what agency can the film people go to get the money that they need to repair their facilities to do more marketing, to do more tax credits, *et cetera*? None of the agencies that they are in, or perspective agencies that they would be in, offers them any money. In fact, they said that if we did come into HTA, HTA would have to have some more money to do it.

"I think, as the previous speaker has said it, it's a bit of an embarrassment, it's something that we should clarify, but it really has the ball bounced back to us. If we want a vibrant, robust, tourism film industry, we have to provide the money for that to be done. And right now, Mr. Speaker, that's not going to be done.

"One of the other reasons why I think there is a good point behind this bill, is that if it's not money and if we look below the surface of that, there may be a better chemistry between the industry and HTA rather than the industry and the DBEDT people. I think DBEDT is probably a little bit more, maybe it's not the kindest term but it's probably a bit more bureaucratic than HTA. HTA is a bit more private sector, let's get the job done, let's go for it. And I think that's the way the film industry and the ethos of that film industry is constructed. So for the chemistry reason, not the money reason, even though the money is the primary reason for this being done, I think there's probably benefits to this bill as it stands. Thank you, Mr. Speaker."

Representative San Buenaventura rose to disclose a potential conflict of interest, stating:

"Thank you, Mr. Speaker. Ruling on a potential conflict of interest. My husband works for the film industry and is a member of IATSE," and the Chair ruled, "no conflict."
